

Description:

GPD2846A for MP3 player with FM radio function and LineIn features designed chips. It includes 2W mono amplifier and power amplifier (maximum output 3W 5V) supply.

It featured a great sound quality output for speakers. The amplifier chip needs a cooling heat sink.

Features:

Working Voltage: 3.7V Lithium Battery 600MA or 5V USB Power Supply

Playable Tcard / SD card, U disk, and external audio sources (LineIn)

Chip: GPD2846A

2W Mixed mono

LED indicator

Supports USB audio mode

Supports 3 types FM radio chip: RDA5807, BK1080 and RTC6207E.

infrared remote control: No

PackageType: SOP16 package sheet

Automatically detects the headset

USB device mode support: No

PCB Size: 34.23mm x 22.33mm x 1mm
