

Characteristics

Basic

Manufacturer	Panasonic
Manufacturer country	Japan
Type of transistor	Bipolar
Type of bipolar transistor	NPN
Execution	Discrete
Housing material	Plastic
Mounting type	Manual installation

additional characteristics

Collector-emitter voltage	1500V
Emitter-base voltage	6V
DC Collector Current	8A
Collector Current Pulse	16A
Dissipated reservoir power	50W
Working temperature	-55 + 150
